EXPERIENCE

Full Stack Developer · Rirabh Consulting Services LLP CURRENT

Mar 2026 – Present · Noida

- Rejoined in an expanded role; build features end-to-end — database schema, REST APIs and responsive React UIs.
- Develop scalable backend services with Django, DRF and FastAPI on AWS, secured with JWT authentication.
- Raise code quality through code reviews, structured logging and maintainable architecture.

Software Engineer · IOanyT Innovations Pvt. Ltd.

Mar 2025 – Mar 2026 · Noida

- Developed scalable Python APIs on **AWS Lambda** and API Gateway powering real-time trading platforms.
- Designed event-driven workflows with **AWS SQS and EventBridge** for reliable, decoupled processing.
- Delivered real-time market data from Twelve Data and FMP using a **Redis cache-first** strategy with API fallback.
- Optimised API performance and reliability; worked with frontend and DevOps teams to ship to production.

Python Developer · Rirabh Consulting Services LLP

Jan 2023 – Feb 2025 · Noida

- Built RESTful APIs with **Django REST Framework and Flask** for multiple client web applications.
- Wrote optimised queries with Django ORM and SQLAlchemy on PostgreSQL and MySQL; validated data with DRF Serializers and Marshmallow.
- Secured APIs with **JWT authentication**; owned API testing in Postman and automation with Python scripting.

Software Developer Intern · TwoWaits Technologies Pvt. Ltd.

Oct 2022 – Dec 2022 · Noida

- Built REST APIs with Flask and Django on MySQL and PostgreSQL; applied OOP, DBMS and Git workflows in a team.
